

EasyOne Air Version History

This document lists all EasyOne air releases.

Some versions haven't been distributed or only for selected customers. The changes though are cumulative, that means that changes introduced in a version are also included in later versions.

If you use the optional EasyOne Connect Software you need to check/update this version as well.

Version Date	Description
<p>V1.9.1 March 2018</p> <p>Compatible with EOC PC Software V3.04.00.23 and higher</p>	<ul style="list-style-type: none"> • Support Provocation/Challenge Tests in combination with EasyOne Connect <ul style="list-style-type: none"> ○ Perform provocation tests with EasyOne Air ○ Supports full provocation functionality of EasyOne Connect including customized provocation tests • Improved connection stability in combination with EasyOne Connect <ul style="list-style-type: none"> ○ Improved stability during online tests ○ Fixed several issues that could lead to Bluetooth disconnections during online tests • Generally improved functionality <ul style="list-style-type: none"> ○ Recalculate the predicted values after changing patient demographics ○ Show progress bar for long operations • Additional Language Support <ul style="list-style-type: none"> ○ Added Swedish software language • General Bug fixes <ul style="list-style-type: none"> ○ Solved several minor issues that lead to system crashes
